OBJECTIVE

I am a software developer who enjoys solving problems and improving skills. I'm looking for a role where I can take on challenges and contribute effectively.

EXPERIENCE

•Software Developer Intern

Cirtru Classified Pvt. Ltd. / Mumbai

May 2024 – July 2024

[Internship Certificate](#)

- **Contributed** to the development and enhancement of a **full-stack web application** using the **MEAN stack** (MongoDB, Express.js, Angular, Node.js).
- Improved the **chat application's UI** for better design and user experience.
- Optimized **URL redirection** to make page transitions faster.
- **Fixed platform bugs**, improving system stability and performance.

PROJECTS

•Restaurant Food Ordering API

Node.js, Express.js, MongoDB, Mongoose, JWT, REST API

July 2025

[Github](#)

- Developed a **backend system for a restaurant application** using **modular MVC architecture** for scalability and maintainability.
- Implemented **user authentication and role-based authorization** to **manage access control** for admins, staff, and customers.
- Designed and integrated **CRUD operations** for restaurants, categories, food items, and orders to support full restaurant workflow.
- Built secure **RESTful APIs with JWT authentication**, password hashing, and middleware-based validations.
- Ensured production readiness by applying **error handling techniques**, optimizing **Mongoose schema** design, and testing APIs with **Postman**.

•Real-Time News Dashboard

React JS, React Hooks, HTML, CSS

January 2025

[Github](#)

- Developed a React.js news website **integrating News API** with category-based filters, **React Router** for smooth navigation, and responsive UI design.
- Implemented **React Hooks** to efficiently manage state, data fetching, and loading for seamless real-time news updates.

•Voice-Controlled Browser Assistant

React JS, Speech Recognition API, HTML, CSS

December 2024

[Github](#) / [Link](#)

- Built a voice assistant using **React and JavaScript** for hands-free web browsing.
- Enabled users to open websites and search the web using **voice commands**.
- Designed a **user-friendly interface** with multiple voice commands for a smoother browsing experience.

•Portfolio Website with AI Chat

React JS, JavaScript, Bootstrap, GROQ AI API

April 2024

[Github](#) / [Link](#)

- Developed a **responsive single-page** portfolio website using **React.js** with a clean and modern UI.
- Implemented smooth animations, **hover effects**, and motion transitions to **enhance interactivity** and engagement.
- **Integrated the GROQ AI API** to build an AI-powered **chat assistant** that responds to **questions** about my resume and experience.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, JavaScript
- **Frameworks:** Angular JS, React JS, Node JS, Next JS
- **Web Technologies:** HTML, CSS, jQuery, Bootstrap, Redux, NoSQL, SQL, MongoDB
- **Miscellaneous:** MySQL, Git, PostMan

KEY COURSES TAKEN

- **CSE Maths:** Introduction to computing and data structures, Calculus, Probability and Statistics, Differential Equations, Linear algebra, Financial Risk Management, Managerial Science

ACHIEVEMENTS

- **300+ coding questions** solved across LeetCode and CodeChef. 2025
- Got a **first prize** in Skyscraper, ADVITYA IIT Ropar Technical fest. 2024
- Completed a **DSA Graphs Programming Camp** focused on graph problems like BFS and DFS. 2024
